

FREE SOLAR WORKSHOPS

Cedar Mountain Solar Systems,
the premiere supplier of solar hydronic heating systems for northern New Mexico,
presents a series of free workshops to provide information about:
how solar heating and hot water systems work,
how to decide if such a system is right for you, system costs,
economic and environmental benefits, federal and state tax credits, and more.

November 4th, 2006

Solar heating & hot water for homeowners

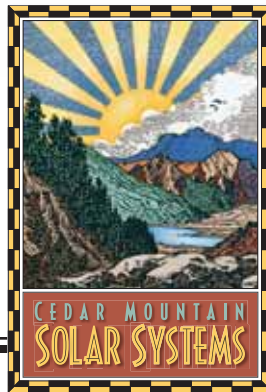

January 13th, 2007

Solar heating & hot water for builders & architects

March 10th, 2007

Solar heating & hot water for homeowners

2-5 pm LaFarge Library, Santa Fe

The workshops will not provide detailed technical information for do-it-yourself installs, but rather a broad look at the implementation and impact of hydronic heating systems.

Please call us at 505.474.5445
or email info@cedarmountainsolar.com
for more information and to register.
